WHO WE ARE

We are one of the leaders in the field of contract manufacturing of pharmaceutical products.

The company has a modern and innovative machinery park and a well-equipped research and development department employing experts in their respective fields.

With over 30 years of presence in international markets, CHC has been recognized as a trusted partner providing services to Clients from the pharmaceutical, food and cosmetics industries as producers of medicinal products, medical devices and veterinary products.

We offer a comprehensive range of solutions, from research and development services, through Regulatory Affairs to quality consultancy, production, storage and transport.

1989

Production of tablets under own "Curtis Healthcare" brand name.

2010/2012

Sale of own brands; opening of new manufacturing plant in Wysogotowo (near Poznań) under the name of "Curtis Health Caps" and changing business profile to contract manufacturing.

2014

Implementation of a new packaging service (unitary containers); the development of a finished product portfolio; intensive development of R&D and analytical services.

2008

Launch of production line of soft gelatin capsules.

2013

Expansion into new international markets, coupled with a dynamic growth in sales and production; investment in new machinery.

2017/2018

CDMO - contract development & manufacturing organization; further development; obtaining GMP for non-sterile liquids; expanding the scope of services with: licensing ready dossier, product registration, ready solutions for pharmaceutical entities.

2021

GMP Packaging of the medicinal product:

- tablets,
- hard capsules.

2015/2016

Implementation of the new production line for non-sterile liquid forms; possibility to provide a service of comprehensive product development - R&D and analytical support; obtaining the certificate of BRC Food safety standard.

2020/2021

Curtis Health Caps transformed from the legal form of a limited liability company to a joint stock company.

2022

Plant expansion

- increasing the space of packaging area by more than 80%,
- increasing production capacity in pharmaceutical standard,
- optimizing logistics processes.

ABOUT US

Mission

CHC supports its partners in the **pharmaceutical** sector **worldwide** by developing and contract manufacturing products of **high quality**, carefully tailored to the ever-changing customer needs.

Vision

CHC endeavours to become one of the **leading** suppliers of innovative and all-embracing solutions for developing and contract manufacturing of products. Our work is our **passion**, while **responsibility for our employees and environment** is our priority.

POSSIBILITIES

OUR FACILITY

- **4 modern** encapsulation lines
- **Mixers for the preparation** of fill and gelatin mass
- **1 filling line** for liquids
- **2 fully automatic** blistering lines
- **Dedicated line for packaging** in containers and jars
- **Multi-purpose packaging line** designed for packaging various non-sterile liquid forms in glass and plastic bottles
- **Pilot size** batches
- **Wide range** of batch sizes
- **Well-equipped** laboratories
- **Air-conditioned high-bay warehouse** with 3 temperature zones (2-8°C, 8-15°C and 15-25°C)

2

POSSIBILITIES

1.4 bln

(in conversion to 10 oval)
soft gel capsules per year

8 mln

packages of liquid
forms per year

380

trusted, well-qualified
employees

8 670

m² of current
production space

14 000

m² of total usable space

5 000

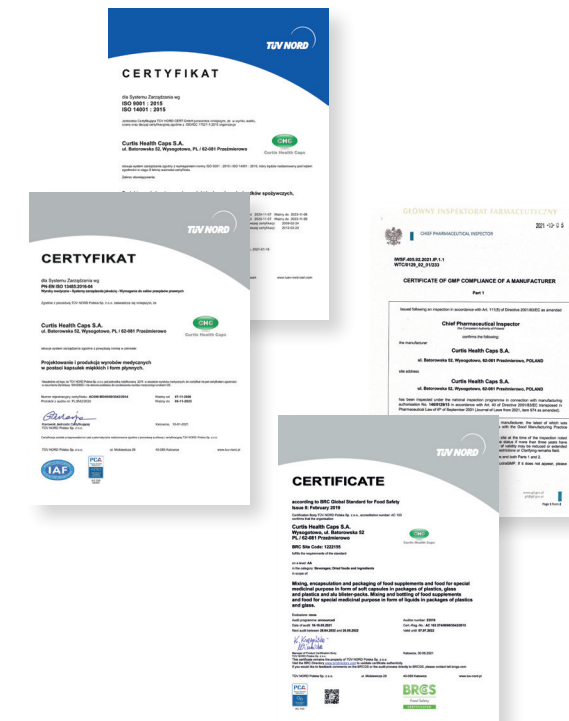

EUR-pallet spaces
(warehouse capacity)

CERTIFICATES

- EU GMP (Good Manufacturing Practice)
- BRC 8th edition (Global Standard for Food Safety)
- EN ISO 9001:2015 and PN-EN ISO 14001:2015
- EN ISO 13485:2016

ADDITIONAL

- We have an alpha number (PL3021012p) allowing the production of veterinary products (complementary feed for animals).
- We produce cosmetics based on the ISO 22 716 standard for Good Cosmetic Production Practice.

SOFTGELS

WHY SOFT GELATIN CAPSULES?

- Fast absorption of active ingredients
- Gelatin shell guarantees airtight packaging for the ingredients included in the capsule fill and protects them against the effects of external factors
- Wide range of shell colours and capsule sizes; guaranteed unique visual properties of the product and advantage over other products available on the market
- The specificity of the encapsulation process ensures microbiological safety of the product without the use of preservatives. This is particularly important in products intended for children
- Capsule shell is composed of biodegradable and environmentally friendly components

OUR CAPABILITIES

Shapes of capsules	Special types of capsules	Types of shell colours	Types of capsule fillings
<ul style="list-style-type: none"> • Oval • Oblong • Round • Special shapes (customized) 	<ul style="list-style-type: none"> • Twist-off • Chewable • Suckable • Bath 	<ul style="list-style-type: none"> • Transparent or coloured • Mono- or bi-coloured 	<ul style="list-style-type: none"> • Suspension fillings • Oily fillings

GELATIN

The gelatin shell is an essential part of the capsule. Our shells are made of:

- Bovine gelatin
- Porcine gelatin
- Fish gelatin
- Gelatin for chewable capsules (a special gelatin mix)
- Halal bovine gelatin

PACKAGING SERVICE

We have a machinery park suitable for packaging in blisters and containers:

- Soft capsules
- Tablets
- Hard capsules

Containers	Blisters
<ul style="list-style-type: none"> • Standard containers (HDPE 60, 75, 90, 100, 150 ml; GLASS 100 ml) • PET containers (75, 100, 120, 150, 200, 300, 500 ml) • Containers for medicinal products (HDPE 15, 35, 60, 75, 100, 150 ml) 	<p>We offer blisters in the range up to max. 120 x 90 mm</p> <ul style="list-style-type: none"> • Standard blister sizes – 56 x 102 mm and 66 x 120 mm • Confection of 10, 15 and 20 capsules/blister • Samples

We also offer nonstandard solutions to adapt/adjust to Clients' requirements.

LIQUID FORMS

WHY LIQUID FORMS?

- Wide dosage spectrum
- Attractive taste and smell – especially important for children
- Easy to use
- High absorption rate
- No risk of choking – liquid consistency facilitates swallowing
- Due to a variety of dispensing accessories available, product administration to children and elderly people is safe and easy
- Optimal pharmaceutical form for paediatric and geriatric patients (better compliance)

LIQUID FORMS

OUR OFFER

R&D and commercial production of:

- Syrups
- Suspensions
- Oral solutions (aqueous and oily)

PACKAGING

As we own a customised packaging line, we are able to offer our customers finished products in a variety of unit packages, including:

- Glass bottles (10, 20, 30, 125, 200, 300 ml)
- PET bottles (50, 60, 100, 120 ml)
- Glass vials (10, 20, 30 ml)
- HDPE vials (15, 30 ml)
- Closures with tamper-evident ring and/or childproof closures

Complete set of dispensing accessories:

- Snap on pump
- Dispenser: drops, spray, nasal, earbuds
- Glass pipettes,
- Droppers
- Syringes
- Packaging in single boxes and master cartons

A laboratory setting with a beaker on a scale containing red liquid and a capsule, with a gloved hand using a pipette.

5

R & D

TECHNOLOGY

We offer a wide range of services in the field of manufacturing technology of soft gelatin capsules and non-sterile liquid forms:

- Formulation development of new products based on the latest market trends and literature
- Modification of existing product formulations
- Selection of raw materials of adequate quality from qualified suppliers
- Development of technology and production of trial and pilot batches
- Product transfer and development

ANALYTICS

Research and Development department experts offer the following professional services:

- Development and validation of analytical methods for products
- Development and validation or implementation of analytical methods for raw materials
- Optimization of analytical methods
- Works listed above are conducted according to ICH guidelines, pharmacopeial requirements and GMP regulations.
- Transfer and analytical methods

STABILITY TEST

In order to ensure comprehensive product service, we run shelf-life tests of products conditioned in climate chambers:

- long-term (25°C/60%RH),
- medium-term (30°C/65%RH)
- accelerated (40°C/75%RH)

Stability tests are run based on ICH guidelines (Q1A-Q1F), Annex 2, published by WHO

REGULATORY AFFAIRS

We offer a wide range of regulatory services, which includes the following legal categories of products:

- medicinal products
- medical devices
- food supplements
- cosmetic products

- OTC switch
- Pharmaceutical consulting
- Dossier audit
- Preparation of expert reports

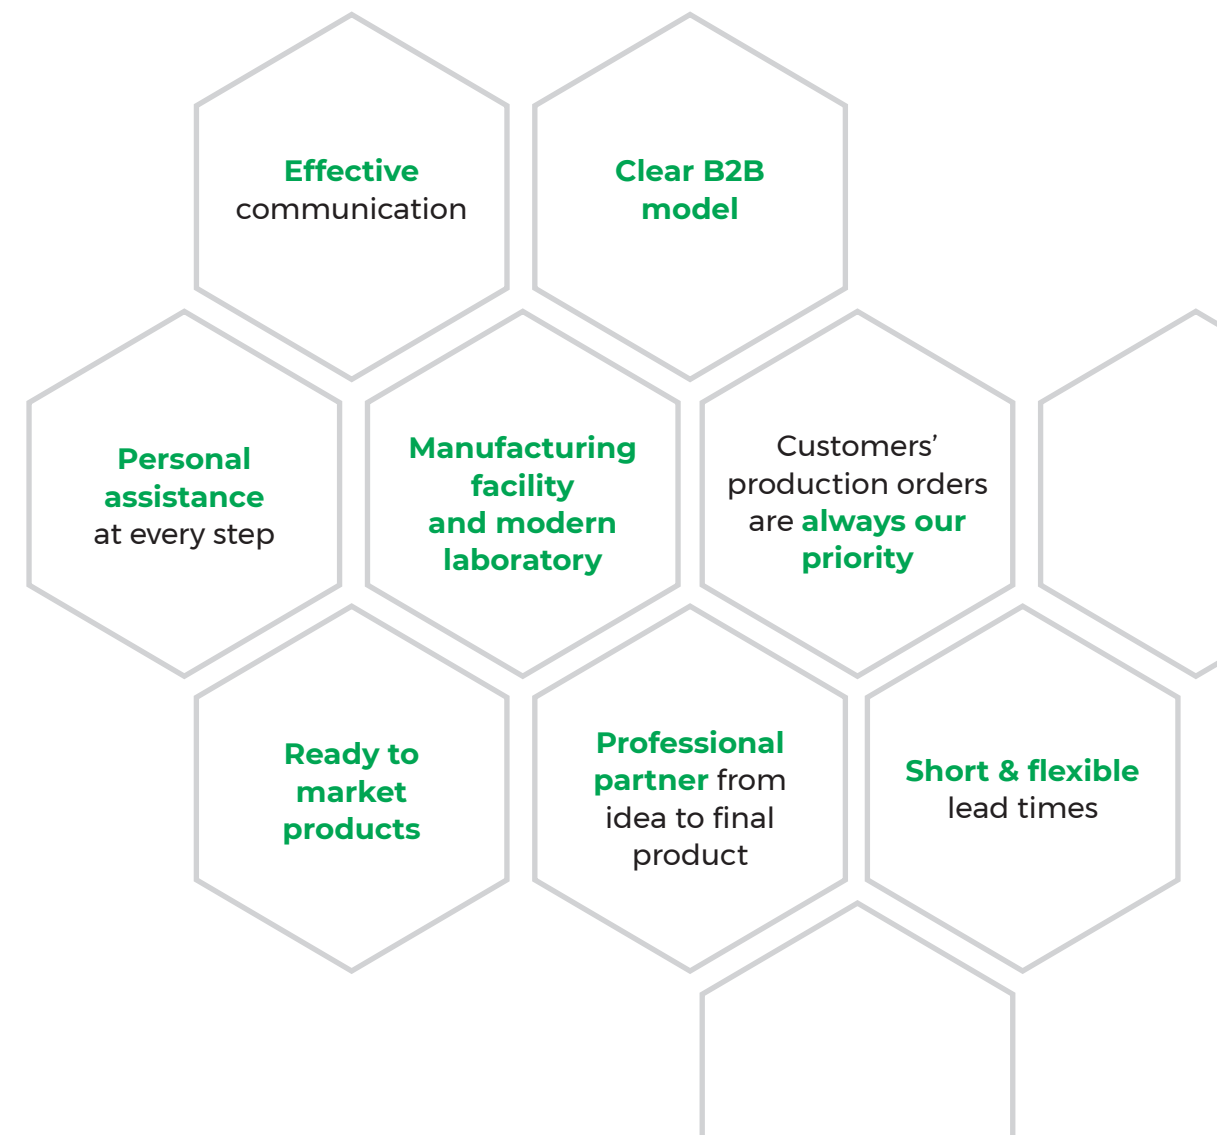

WHY CHC?

GLOBAL RANGE OF SERVICES

OUR ADVANTAGES

FROM IDEA TO FINISHED PRODUCT

1

Idea

- Product concept – R&D analysis and professional supporting tool
- Theoretical formula

2

R&D activities

- Formulation
- Scale up
- Technology transfer
- Analytical methods
- Stability
- Regulatory Affairs

3

Production

- 4 encapsulation lines
- The multi-purpose line for non-sterile liquids
- Pilot line batches
- Competent staff working 24/7

4

Packaging

- Fully automatic blistering lines
- Line for packaging in containers and jars
- Automatic line for non-sterile liquid forms
- 2 fully support in the selection of the best packaging materials for the Customer
- Robotic filling line for liquids

5

Logistics

- Competitive lead times
- Support in the organization of storage and transportation

¹ According to Commission regulation (EU) No 432/2012. In view of the current epidemiological situation, a number of scientific studies have recently evaluated the benefits of vitamin D in the prevention and alleviation of the course of COVID-19 infection. A correlation has been found between vitamin D levels and the severity of the disease.

² The maximum permissible dose depends on the regulations of the country.

DESIGNATION	DESCRIPTION	PACKING STANDARD	COMMENTS	EXAMPLE
STANDARD	60 ml HDPE	60 ml PE container, white color, diameter: 45,3 mm, height: 67 mm	Containers made of high-density polyethylene are characterized by a high barrier to the permeability of oxygen and water vapor. White HDPE containers protect photosensitive products. As a standard, HDPE containers are packed in individual cardboard boxes, but at the customer's request, we can omit this component.	
		Label: 40x130, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 48,5x48,5x98, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		
	75 ml HDPE	75 ml PE container, white color, diameter: 43 mm, height: 76 mm		
		Label: 40x124, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 48,5x48,5x98, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		
	90 ml HDPE	90 ml PE container, white color, diameter: 45 mm, height: 91,4 mm		
		Label: 55x130, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 50x135, white foil on a paper base, 4 colours, UV gloss varnish		
	100 ml HDPE	100 ml PE container, white color, diameter: 46,3 mm, height: 81,4 mm		
		Label: 50x135, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 50x50x90, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		
	150 ml HDPE	150 ml PE container, white color, diameter: 52,5 mm, height: 88,4 mm		
		Label: 55x162, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 52x53x102, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		
	75 ml HDPE	75 ml PE container, white color, diameter: 45 mm, height: 67 mm		
		Label: 43x135, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 52x53x102, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		
	100 ml glass	Glass container, brown, with a capacity of 100 ml, diameter: 43,3 mm, height: 75,6 mm		
		Label: 50x150, white foil on a paper base, 4 colours, UV gloss varnish		
		Unit box: 52,5x52,5x102,5, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish		

DESIGNATION	DESCRIPTION	PACKING STANDARD	COMMENTS	EXAMPLE
75 ml PET	75 ml PET container, diameter: 45,2 mm, height: 82 mm.	label: 50x130, white foil on a paper base, 4 colours, UV gloss varnish	The manufacturer of PET packaging declares that it is possible to produce a given container in the following colors: transparent, white, brown, green, blue.	
100 ml PET	100 ml PET container, diameter: 47 mm, height: 86,2 mm	label: 55x135, white foil on a paper base, 4 colours, UV gloss varnish		
120 ml PET	120 ml PET container, diameter: 49 mm, height: 93,1 mm	label: 60x153, white foil on a paper base, 4 colours, UV gloss varnish		
150 ml PET	150 ml PET container, diameter: 50 mm, height: 105,5 mm	label: 60x153, white foil on a paper base, 4 colours, UV gloss varnish		
200 ml PET	200 ml PET container, diameter: 58,4 mm, height: 111 mm	Customized to Clients' needs		
300 ml PET	300 ml PET container, diameter: 69,1 mm, height: 113,8 mm	Customized to Clients' needs		
500 ml PET	500 ml PET container, diameter: 77,6 mm, height: 139,4 mm	Customized to Clients' needs		

PET CONTAINERS

DESIGNATION	DESCRIPTION	PACKING STANDARD	COMMENTS	EXAMPLE
15 ml HDPE	15 ml PE container, white color, diameter: 35,7 mm, height: 46,3 mm	label: 11x108, white foil on a paper base, 4 colours, UV gloss varnish unit box: 50x50x80, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160	Containers made of high-density polyethylene are characterized by a high barrier to the permeability of oxygen and water vapor. White HDPE containers protect photosensitive products. As a standard, HDPE containers are packed in individual cardboard boxes, but at the customer's request, we can omit this component. Containers for packing dietary supplements and medical devices in the form of softgel capsules and medicinal products in the form of coated tablets.	
35 ml HDPE	35 ml PE container, white color, diameter: 45 mm, height: 50,9 mm	label: 15x135, white foil on a paper base, 4 colours, UV gloss varnish unit box: 50x50x80, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160		
60 ml HDPE	60 ml PE container, white color, diameter: 45 mm, height: 65,7 mm	label: 28x135, white foil on a paper base, 4 colours, UV gloss varnish unit box: 52,5x52,5x102,5, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160		
75 ml HDPE	75 ml PE container, white color, diameter: 45 mm, height: 78,7 mm	label: 36x135, white foil on a paper base, 4 colours, UV gloss varnish unit box: 52,5x52,5x102,5, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160		
100 ml HDPE	100 ml PE container, white color, diameter: 45,3 mm, height: 95,7 mm	label: 55x135, white foil on a paper base, 4 colours, UV gloss varnish unit box: 52x52x125, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160		
150 ml HDPE	150 ml PE container, white color, diameter: 45,3 mm, height: 132,7 mm	label: 75x105, white foil on a paper base, 4 colours, UV gloss varnish unit box: 58x58x148, alaska plus 255g/m², 4 colours CMYK, UV gloss varnish leaflet: 60g/m², 120 x 160		

CONTAINERS FOR MEDICINAL PRODUCTS

12 | CLOSURES

DESIGNATION	DESCRIPTION	COMMENTS	EXAMPLE
SNAP-ON PUMP WITH DISPENSER	SNAP-ON PUMP	Multi-material snap-on pumps for glass vials and HDPE vials, dose 50-200 µl, tube length adjusted to 10-30 ml vials	
	ORAL DISPENSER	Oral dispensing actuator, spray, short, non folding, for pump snap-on	
	DERMAL DISPENSER	Dermal dispensing actuator, drop, for snap-on pump	
	EAR DISPENSER	Ear dispensing actuator, spray, for snap-on pump	
	NASAL DISPENSER	Nasal dispensing actuator, spray, for snap-on pump	
BOTTLE CLOSURES	CHILD-PROOF CAP	Child-proof cap with tamper evident ring, white, PFP 28	
	SCREW CAP PE with temper evident	Screw cap PE with temper evident ring, white, thread 18	
	SCREW CAP with temper evident ring and dropper	Screw cap with temper evident ring and dropper, white, thread 18	
CLOSURES FOR STANDARD CONTAINERS	PE SCREW CAP with induction insert, thread 34.8	PE cap, white, with an aluminum induction insert on a cardboard backing	
	PE SCREW CAP with induction insert	PE screw cap with induction insert, orange color	
	PP SCREW CAP with induction insert, thread 33	PP cap, white, with an aluminum induction insert on a polystyrene base	
	PE SCREW CAP with induction insert, thread 38	PE cap, white, with an aluminum induction insert on a cardboard backing	
	ALUMINUM SCREW CAP	Metal, silver cap with a polystyrene adhesive insert
